## **North American Sturgeon and Paddlefish Society Sturgeon ...**

The North American Sturgeon and Paddlefish Society (NASPS) is the North American affiliate of the World Sturgeon Conservation Society. We are dedicated to promoting the conservation and restoration of sturgeon

species in North America by developing and advancing research pertaining to their biology, management, and utilization.

### **Green Sturgeon :: NOAA Fisheries West Coast Region**

Green Sturgeon . Twenty seven species of sturgeons can be found in temperate waters of the Northern Hemisphere, two of which reside on the West Coast of North America: the green sturgeon (*Acipenser medirostris*) and the white sturgeon (*Acipenser transmontanus*).

### **Lake Sturgeons, Lake Sturgeon Pictures, Lake Sturgeon ...**

Once abundant in North America's Great Lakes and upper Mississippi River, lake sturgeon populations have plummeted. These freshwater monsters, the continent's largest fish, are extremely long lived.

### **Sturgeon**

Two closely related species, *Polyodon spathula* (American paddlefish) and *Psephurus gladius* (Chinese paddlefish, possibly extinct) are of the same order, *Acipenseriformes*, but are in the family *Polyodontidae* and are not considered to be "true" sturgeons.

### **Green sturgeon**

Landlocked white sturgeon populations have been widely observed in the Columbia and Fraser systems but no landlocked green sturgeon populations have ever been documented in any river system (Beamesderfer et al. 2004), indicating that green sturgeon likely did not historically spawn in the upper reaches of rivers prior to the construction of large dams as NMFS 2005 has assumed.
